Profile

Front-End / UI Developer with over 8 years of experience, specializing in WordPress development and front-end technologies. Skilled in creating responsive and user-friendly web interfaces using HTML5, CSS3, JavaScript, and jQuery. Extensive experience with custom WordPress themes, plugins, hooks, and filters, as well as page builders like Elementor, WPBakery, Divi, and Beaver Builder. Proficient in API integrations for front-end functionality using WP REST API and Vue.js for limited front-end enhancements. Overall, I have 8 years of experience in front-end development, including extensive experience converting Photoshop designs into responsive web interfaces, and over the last two years, integrating UX designs using the Figma tool. Delivered 180+ WordPress projects, combining both front-end and back-end expertise.

Professional Experience

Front-End / UI Developer

Docking Station Technologies, Technopark, Trivandrum (Mar 2019 – Nov 2025)

- Lead front-end development within a team of 5 developers. Developed and customized WordPress websites, including themes, plugins, hooks, and filters.
- Integrated ACF (Advanced Custom Fields) for dynamic and customizable site content.
- Experienced with major page builders – Elementor, WPBakery, Divi, and Beaver Builder.
- Implemented WP REST API for data-driven WordPress front-end solutions.
- Occasionally worked with Vue.js for front-end components.
- Converted designs from Figma and Photoshop into functional, responsive web pages.
- Successfully completed 80+ WordPress projects, ensuring high-quality performance and scalability.

UI / Web Developer

CodeFizz (OPC) Pvt. Ltd., Kollam (Apr 2017 – Feb 2019)

- Designed and developed responsive websites using HTML5, CSS3, JavaScript, and WordPress.
- Customized WordPress themes and integrated plugins to meet client requirements.
- Maintained website performance and cross-browser compatibility.
